

## Progress Table

Task	Complete	Incomplete / Not Working	Not Done
Database Setup	<i>Created database called 'colleges_and_student_management_system_db' with two tables called: 'students' and 'colleges' with migrations for both tables</i>	...	.....
Routes	<i>Created route file (web.php) that contains the routes for the Colleges (CollegeController) and Students (StudentsController)</i>		
Controllers	<i>Created two files for both Colleges and Students with every feature working as intended</i>	...	...
Blade Views	<i>Every blade view is implemented with average ui and every button works as expected</i>	...	...
Partial views	<i>The views are implemented for each of the main blade views</i>	...	...
Validation/Alerts	<i>The validations are being handled on both back-end and front-end</i>	...	...
Eloquent ORM	<i>The relationships are as expected as a college can have multiple students but a student can only be in one college</i>	...	...
